DYW SKILLS ACADEMY

The DYW Skills Academy was a 5-week programme launched in the summer of 2020 and it was made available to all young people who had left or were leaving school and were eager to get industry ready. DYW Skills Academy was packed with educational content that can take you a step forward in your career journey and get you industry ready.

"The Skills Academy was an invaluable resource for me during the summer and gave me skills I will use throughout the rest of my life. Having the ability to have my CV reviewed by directors of well known companies in the midst of a global pandemic was such a great opportunity and in my opinion, puts me one step ahead of other people when applying for jobs.

Also, having the opportunity to participate in a mock interview, again with experienced company interviewers and directors meant that my first real job interview was less daunting and therefore easier. On top of that, the various webinars, videos, newsletters and articles by the DYW skills academy throughout the summer gave me lots of knowledge and advice about the world of work that I otherwise wouldn't have found out.

Overall, it was an opportunity that I will always be grateful for as it was a tool that helped me get a job during a time where competition for jobs was extremely high and vacancies were few and far between. If it hadn't been for the academy during the summer, I certainly wouldn't be in the position I am in now."
