Financial
Enterprise

Careers Adviser and Teacher
Virtual Information Session
Exploring Careers in Financial Services
Thursday 3 November 2022, 4pm – 5pm

**FUTURE
ASSET**

Investment20/20, Scottish Financial Enterprise and Future Asset are hosting a short information session for anyone who is involved in supporting people thinking about their career and next steps.

Join us for this virtual session and gain an update on the labour market developments in financial services, including a focus on asset management. Attendees will also receive input from a HR expert on the latest trends in recruitment and hiring processes.

Diversity and inclusion remain high on the agenda for financial services. According to the ONS Outcomes for Disabled People in the UK – 2021, only 29% of autistic people are in full or part time employment. The investment management sector has taken steps to address this by partnering with Investment20/20 and Ambitious About Autism. Hear more about this and receive insight on how those in guidance roles can support people with autism in their career exploration. In addition, receive their Toolkit for Professionals, and learn about their network for careers guidance experts.

Finally, attendees will learn how Investment20/20, SFE and Future Asset are working in partnership to support the careers work of schools, colleges, universities, and other organisations – and how to book us for a careers workshop.

- 4.00pm:** **Welcome**, Jenny Barber – *Investment20/20*
